This year glasspro INDIA was a grand success, in a way of appreciation to the individuals like Late RS. Gopal Glass was nominated for Green Initiative Category and our efforts were appreciated with an award. We also could showcase our Tempered Quality Figured Glass to the industry. Team is doing wonderfully well to connect the entire fraternity. This year was more special since glasspro INDIA and glasspex INDIA were held together, giving more exposure to Indian glass manufacturers and processors.

This is our second time in glasspro INDIA. It's better than last year. This year visitors footfall is quite impressive which helped us allot to promote our company and our products. And the most important thing is all visitors are related to the glass industry. This is the best thing of glasspro INDIA. But I think three days are not enough. It's our pleasure to attend glasspro INDIA 2019, and we are going to exhibit next year also.
